CPDOnline
by WebBased

Don't just take our word for it...

Promote, manage, monitor and review Professional Development across the Children's workforce

"In North Somerset we have successfully been using CPD Online with schools for four years and are currently extending it across the wider Council, with partner agencies who work with children, young people and vulnerable adults. The system is very straight forward and intuitive to use ensuring a positive user experience."

- **Steve Baber**, Workforce & Cultural Development Manager, North Somerset LA

"CPD Online has saved the South East Wales Consortium (5 LEAs) £150,000 this year – savings will be repeated in future years. These efficiency savings are due to reduction of administration time, automation of tasks and the use of electronic communications. In these difficult economic times we are delighted to have invested in such a cost effective and powerful IT solution that is paying for itself many times over."

- **Mark Austin,** School Improvement Adviser, SE Wales Consortium

"The move to CPD Online by Camden's Training and Development Service (TDS) has been very successful. The new online system was rolled out to all staff in Camden's Children, Schools and Families and Adult Social Care workforce.

CPD online ensures TDS can easily market new training opportunities for its wide range of users, run efficient reports and queries and, most importantly, allow Camden's workforce easy access to training and development opportunities.

We are very pleased to report that 95% percent of users have moved from the former paper-based application system to TDS-Online and that there has been a perceived increase in training and development uptake."

- **Gillian Tilbrook**, Head of Service, Camden TDS

Our Core Modules

CourseFinder
An online course directory that is always up to date

Planning made easy
Give everyone access to the same information as you plan courses in one place.

Advertise and increase course take up
Courses are available direct to your target audience with users able to subscribe to new course email alerts.

Save time & resources with online course booking
Users request places online with bookings authorised by line managers. All paper communications are replaced with emails and texts.

ePDR
A Professional Development Record for every user

Everything in one place
Past and future course attendance is tracked automatically with access to handouts and pre course material in one place. Ideal for keeping CVs up to date.

Personalised course recommendations
Users create a profile of their interests or training they must do. Courses that match their profile are automatically emailed to them.

Up to date reports
Line managers and the LA can generate reports across the workforce saving hours when completing returns.

> “One LA has taken **over 30,000** online bookings in just one year **saving thousands of pounds** in postage costs alone.”

Evaluations and Impact
Track the quality and effectiveness of CPD

Monitor quality with end of course evaluations
Reports automatically summarise end of course evaluations with data available to tutors, line managers and the LA.

Measure impact
Participants are invited after 3-6 months to reflect on the impact each CPD event has had on their working practices.

Finance and Audit
Provide CPD cost effectively

Expected costs
During the planning for each event a basket of expected costs is created for the venue, catering, tutor, resources etc.

Profit and loss for each event
After each event a profit and loss report provides detailed financial information.

Online statements save time for your users
Line managers can access detailed financial reports for their establishment or department at any time.

Features and Benefits

Always up to date
Any changes are reflected online immediately with participants automatically informed.

Time and Resource Saving
From online course booking to automatic emails and texts CPD Online saves time, resources and money.

Participants
Can always access their own CPD records from anywhere.

Improve Performance Review
Having information together in one place enhances Performance Reviews.

Customisable
Each LA has their own design and implementation ensuring CPD Online integrates with existing systems and meets local needs.

Line Managers
Can access reports for colleagues at any time.

Other Modules
Enhance CPD Online by adding further modules

CV Builder
- users can download an up to date CV at any time.

Qualifications Audit
- track the qualifications of the Children’s workforce.

Governors Online
- manage the composition of Governing bodies and track training.

NQTs and Induction Online
- tools to ensure induction processes are completed correctly.

Performance Management
- to analyse need and to record and monitor targets.

Expertise Database
- records expertise across the workforce that can be easily matched to needs.

Centre Manager
- manage room bookings and resources.

Directorate Calendar
- a single calendar recording all meetings, events and conferences.
