Kent LA launch CPD Online across many services

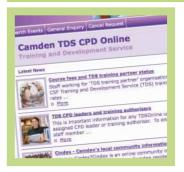

Having successfully launched CPD Online across hundreds of Kent schools early in 2010, Kent LA have since rolled out the solution to further members of the children's workforce. They now offer training to Early Years Practitioners, Governors, Social Care staff, Local Authority and other multi agency staff via their CPD Online site.

Ealing LA go-live with CPD Online February 2011!

We are delighted to announce London Borough of Ealing will be rolling out CPD Online. The solution provides an integrated system to advertise and manage training and development provision for school staff, governors and members of the wider children's workforce. The rollout will also include a complete venue management system and room bookings for Ealing's Education Centre.

Camden LA launch NQT Online

Following the highly successful rollout of CPD Online, Camden LA have further increased efficiency with the introduction of the NQT Manager Module. This easy-to-use solution includes many features to help schools and LAs track and report on NQTs' progress. LA NQT Administrators can generate reports at any time, view online assessments and dates and track when assessments have been completed or are due.

Herefordshire gear up to launch CPD Online

Herefordshire Children's Trust will be launching CPD Online in January across the workforce. This will include Schools, Early years, Governors and Multi Agency. The Trust are very excited about moving to an online system where they can remove paper based systems and give all users access to their own online Personal Development Record which they can access anywhere and at any time.

Dorset LA set to launch CPD Online Spring 2011

CPD Online will go-live to all Dorset schools next Spring. Dorset will be working closely with Poole and Bournemouth to achieve an integrated system across the three LAs. Users will be able to benefit from a single account pulling training together in one place. Courses can be cross advertised between the three Authorities opening up the training opportunities for users.

Suffolk County Council (SCC) Children and Young People's (CYP) Services prepare to launch CPD Online across their workforce

Suffolk County Council Children and Young People's Services plan to roll out CPD Online from April 2011. Training opportunities will be advertised across the authority via a multichannel site, opening up a whole range of new possibilities for training and professional development. Users will have one account which will allow them to book and pay for courses online, seek specific expertise via the Expertise Database, track their qualifications and have anytime access to their training portfolio.

South East Wales Consortium

Following the successful launch of CPD Online the SE Wales Consortium have been rolling out new modules. This has included the CV Builder allowing staff to easily and effectively build a CV within their Electronic Development Record and the Effective Practice Database which allows schools to upload information and case studies of effective practice with an easy-to-use search for end users to utilise. They will also be releasing their Performance Management module to all schools very soon allowing the performance review process, targets, evidence, learning aspects and progress to be managed and tracked online.

Over 30,000 online bookings for Babcock 4S

Babcock 4S is one of the largest integrated school improvement service providers in the country and is using CPD Online to effectively transform the provision of continuing professional learning and development to the school workforce through its joint venture with Surrey County Council. In just one year Babcock 4S have taken over 30,000 online bookings saving thousands of pounds in postage costs alone.
