

▶ Ealing Council Children's Services launch CPD Online

Ealing has rolled out CPD Online to all schools across the Local Authority. The solution provides an integrated system to advertise and manage training and development provision for school staff, governors and members of the wider Children's Workforce. Over the coming months Ealing will launch a venue management system with room bookings which is fully integrated with the training module and an Expertise Database, allowing users in a number of West London local authorities to search for specific expertise. ▶ Camden LA delighted with NQT Manager Module

Following the successful launch of CPD Online Camden have rolled out the online NQT Manager Module to all their schools and are delighted with the results. "The use of NQT manager has completely revolutionised the way in which Camden controls and monitors the NQT process. The previous system was paper based which led to mistakes taking a long time to rectify due to the posting and collection of paper based forms, the conversion to an online process has led to a much quicker and more efficient NQT manager system." *Joe McLatchie, Training and Development Database Manager, Camden TDS.*

▶ Basildon Education Services Trust (BEST) to launch CPD Online

Basildon Education Services Trust works on behalf of a partnership of 25 schools in the Basildon area. Basildon BEST will be rolling out CPD Online and a Content Management System to their schools throughout the summer term. They will start advertising all their courses online allowing users to easily book and track their training at anytime from anywhere. The aim of BEST is to provide additional support and challenge schools so that young people from Basildon can compete on an even playing field with young people from more prosperous areas across the UK.

▶ Wandsworth gear up to rollout CPD Online Autumn 2011

We are delighted to announce Wandsworth Children's Services Department will be rolling out CPD Online in the Autumn. They will be rolling out the system across the children and young people's workforce. The department is looking forward to moving to an integrated solution where courses can be cross advertised to different areas of the workforce accessible anytime, anywhere.

▶ London Borough of Bromley to rollout CPD Online

We are delighted to announce Bromley LA (the largest London Borough) will be launching CPD Online to all their schools later this year. CPD Online will allow them to move from their current paper based system to a complete online solution bringing many efficiency savings and benefits to their Training team and school users. Users will be able to search the online course directory, book courses online and look for specific expertise via the Expertise Database. Each user will also benefit from an online Professional Development Record where they can maintain a record of their training and be kept informed of future courses they may be interested in.

▶ Suffolk County Council (SCC) Children and Young People's (CYP) Services go live with CPD Online

Suffolk County Council Children and Young People's Services have rolled out CPD Online across their workforce. Training opportunities are advertised across the authority via a multichannel site. Users have one account which will allow them to book courses online, seek specific expertise via the Expertise Database and have anytime access to their training portfolio.
